

Tables (2023) Offenbach

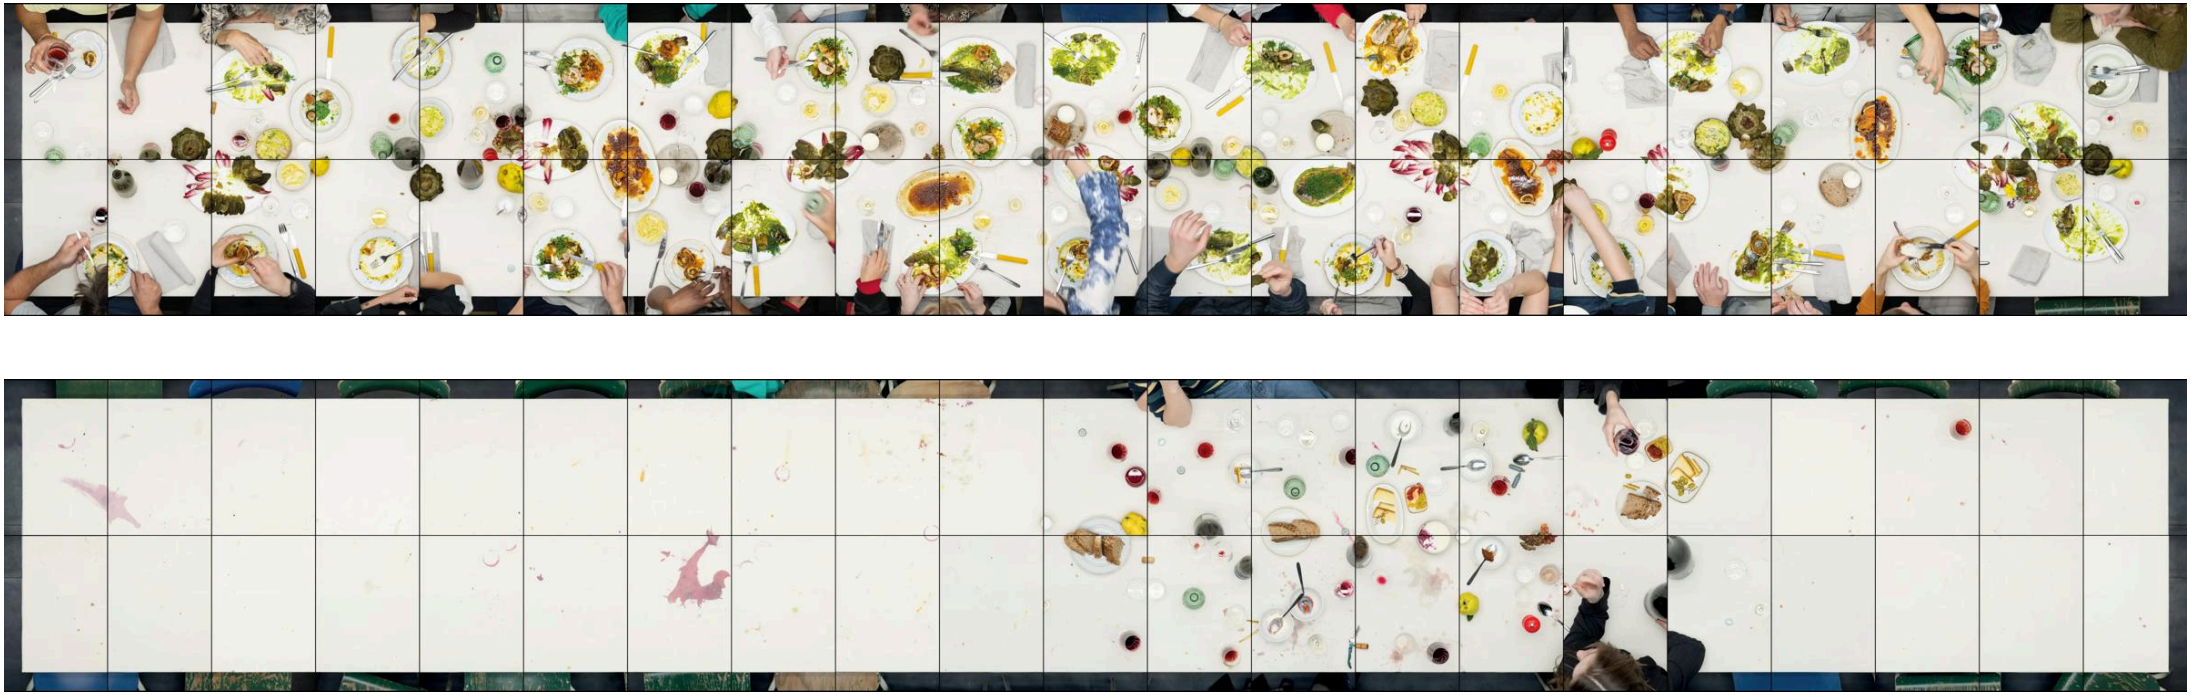

TABLES

AKTION / INSTALLATION / FOTOGRAFIE, OFFENBACH, 2023

Tables was conceived by YRD.Works in 2023 as a commission for the restaurant Emma Metzler in Offenbach and realised in collaboration with the restaurant's staff. The work is a hybrid of photography and action, the two standing in a reciprocal relationship.

For the project, YRD.Works first built an 8.40-metre-long table with room for all of the restaurant's staff. The entire Emma Metzler team prepared a range of dishes coordinated by colour for the action, which were then served in several courses. In the manner of a staff meal, everyone then ate, drank and celebrated together at the long table.

Above the table, YRD.Works installed a steel rail with a motorised camera rig. Using this special apparatus, reminiscent of a scanner, the entire table surface could be captured at original scale in 42 consecutive high-resolution photographs. The resulting images document the six changing table situations of the action and portray the Emma Metzler restaurant in an abstract way. In total, 252 photographs from 42 camera positions and 6 scenes can be combined with one another, allowing a seemingly endless number of variations of the image in the restaurant's dining room.
